

# POOR NO MORE

How you can be a part of the solution to extreme poverty and share deep community with like-minded activists.

**truthxvision**

# Welcome to Truth x Vision.

We're a forward-thinking group committed to instilling the next generation with the dream of ending global poverty.

We are a fun, inclusive community that engages in sustainable development projects helping the global poor rise out of poverty forever.

## The Power of X

In pop culture, “x” is used to indicate a collaboration between two brands or ideas. For us, this means pairing the often ignored yet important truth of global poverty with a vision to act and bring hope together.

We are a place for passionate people to take action against extreme poverty through sustainable, innovative projects.

We’d like to cordially invite you to join our all-star team of world changers who are making a real difference in the fight against global poverty.

## Farm in a Barrel

*A backyard farming system for raising and selling chickens*

Farm in a Barrel was launched in 2013 and expanded in 2015. It has provided beneficiaries with additional income, healthy food, stronger relationships and leadership skills.

**Goal:** Scale the program to make Farm in a Barrel easily accessible to those in need all over the world.

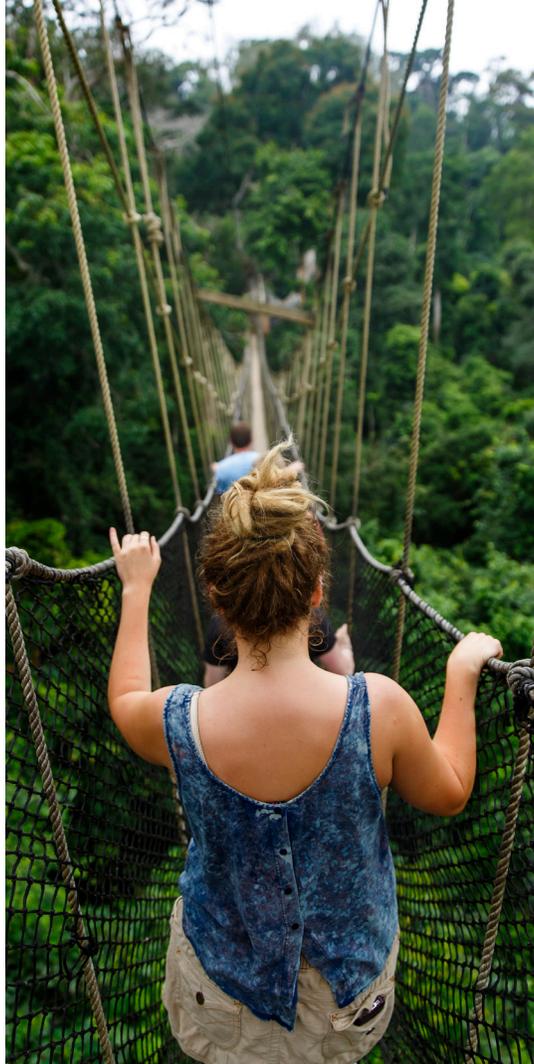

## Village Drill

*A manual, portable drill that can reach water up to 290 feet underground*

Village Drill was launched in 2015 to bring clean water to tens of thousands every year. A local drill team works through a sustainable model to reach communities in need.

**Goal:** Bring clean water to over 100,000 people by 2020 with the Village Drill technology.

## Mission Month

*A freestyle service experience to reach and serve the poor while experiencing rich, vibrant cultures*

Mission Month is our annual mission trip with flexible travel dates and focuses. We serve, we connect, and we have fun!

**Goal:** Build a team base in Ghana to host trips all year round, enabling our team to establish deep relationships and help those in need anytime.

# The Challenge

**This is hard work.**

We want to bring hope to thousands and thousands of people in need, but we are only as strong as the family we build around this cause.

The more we have in our army, the more impact we can deliver.

## The Solution

**An engaged group of leaders.**

Build a movement where all who share our passion for this cause are able to join a team of like-minded thinkers, engaging in the solution financially, emotionally, mentally and spiritually.
